11, 21, and 22 communication processing section
12 content storage section
13 license storage section
20, 60, and 70 receiving terminal
23 presentation processing section
24 operation section
25 presentation section
26 license-corresponding document storage section
27 license storage section
28 content storage section
30 communication path
121-12n, 281, and 282 contents
12a startup document
12b license-corresponding document
12c sub-licenses
12d-12f resources
131-~~13n~~13m licenses

In the specification, page 18, paragraph [0033], please amend the paragraph as follows:

View licenses 131-~~13n~~13m stored in a license storage section 13 contain license IDs, usage rules, and key bunches, as exemplified in (a) to (c) of FIG. 7. The license ID is unique information for identifying the view licenses themselves. The usage rules are conditions regarding periods, the numbers of times or the like in a case where contents are made usable by using the view licenses (including a case in which making sub-licenses usable allows indirectly contents to be made usable). The key bunch is a collection of a plurality of decryption keys to actually make contents or sub-licenses usable (that is, to decode encrypted contents or sub-licenses here).
